

Hiroshima Student Peace Forum

Holding prospectus

Junior Chamber International HIROSHIMA
Future Peace Creation Committee 2017
Chairman Issei Mitsuno

It has been 72 years since Hiroshima was atom-bombed, not only it has got back former town and streets but it has been but even getting developing as well. These are by the grace of ancestors that they has power of revival, tender of mutual help, in addition a lot of supports from many countries including Japan has helped Hiroshima.

To get our brightly future putting the experience of revival to good account, young generation needs to learn the ancestors' thoughts and history and they should has their own thoughts and opinions, and also they need to accept diversity of sense of value all over the world. It is very important for various problems-solving to cooperate and act.

We decided to hold the event to make Young generation in the world think about various problems in the world, cultivate their mind to their town and the world, and grow their hearts sympathetic, and have their new family all over the world.

Scope of this program

We title "Hiroshima Student Peace Forum", and operate this training for learning the ancestors' thoughts, history and various problems in the world. We want the students to consider the importance to act oneself. We hope we can make many friends and inform the importance of Peace though our friends.
